

The Irish Accounting and Finance Association (IAFA) hosted an online doctoral event on 22<sup>nd</sup> March 2024 titled “**Career Planning in Academia**”. This event was kindly supported by CPA Ireland.

The format of the event was a panel discussion. Guest speakers on our panel included IAFA members at various stages of a career in academia and they shared their experiences, learnings, and nuggets of wisdom as they reflected on their academic journey to date. This event provided doctoral students and early career researchers with valuable insights that will assist them in planning for their own career in academia.
